

VALUE STREAM MAPPING

For Executives, Managers, Engineers and Lean Champions

Value Stream Mapping (MGT 4740.05, Sec 01)

Friday, Sept. 21, 7-9:55 pm
Saturday, Sept. 22, 9 am-4:55pm
Livonia Campus: Maertens Bldg., Rm: 103

Early Bird Registration by June 30: \$300
After June 30: \$350

Learn hands-on the fundamentals of Value Stream Mapping through lecture, discussion and a case study. Follow the steps of creating the process family, drawing a current state map, developing a future state map and writing a plan to get there. This session also covers the different types of value stream maps including real examples for: office and support functions, manufacturing, service and supply chains.

Instructor Anthony Manos is certified by the National Institute of Standards and Technology. He has created more than 100 Value Stream Maps for corporations in electronics, retail, manufacturing and automotive. Manos has lectured on Value Stream Mapping at regional, national and international conferences.

What you will learn:

- ✓ To use VSM as a guide or roadmap your Lean journey
- ✓ Discover what's important for the entire organization, not just a department, manager, or function
- ✓ Find a great communication tool to reduce anxiety about the future
- ✓ To utilize a Value Stream Manager that cuts across traditional boundaries or "silos"
- ✓ To use this perfect tool for business planning and budgeting

(Note: This class can be taken for one credit. Call Pat Moore (734) 432-5356 for more information.)
