**Event:** **ENGEL CANADA – Presentation & Plant Tour**

More than half a century of helping our customers meet every molding challenge has given ENGEL consummate expertise - in injection machine technology, in machine control, in automation and in process technology. ENGEL injection molding machines, robots, molds and complete production plants originate from 8 company-owned production operations in Europe, North America and Asia. Each plant specializes in a certain production program. The resulting high level of competency in the respective special field makes it possible to respond to new market requirements rapidly and exactly. Constantly seeking to expand our knowledge, ENGEL continually invests in research and development to bring improved molding techniques, processes and equipment to our customers, giving them the competitive edge required in today's market. Those with technical enthusiasm work accurately and precisely. At Engel this aspiration for absolute accuracy is lasting. We rely on our own performance combined with our profound manufacturing, on absolute precision down to the finest detail. Only in this manner can Engel guarantee its quality and stand behind "Made by Engel" with full conviction.

**Website:** [www.engelmachinery.com](http://www.engelmachinery.com)

**Location:** **545 Elmira Road, Guelph, Ontario**

Directions: Engel is located at the corner of Elmira Road and Woodlawn Road (highway #7 leading to Kitchener). Park at customer training entrance at rear of main plant.

**Presentation:** **“Engel...be the first”**

The presentation will include an overview of the company organization and it's products and the highlights of the Engel Quality System such as; quality system audit methods, achieving customer satisfaction, customer complaint process, key process measurements, continual improvement process, installation and service.

**Speaker:** **Steve Schock, Quality Manager**

Steve is an ASQ Certified Quality Engineer and a Senior member of ASQ. He has been associated with quality / continual improvement processes for 35 years, including 25 years of quality management experience in aerospace / defense, nuclear, automotive and machine building. Steve was born, educated and raised in the golden triangle.
