Quality Quest

Last month the Quality Quest program was initiated. Three work groups were formed. Each group has selected a quality concept that will be researched and presented at our May meeting. At every monthly meeting you will have an opportunity to get together with your work group...that counts for .3 recertification points.

Because these sessions are held just before the regular speaker engagement of the monthly meeting you get another .3 points for the meeting. That's a total of .6 recertification points for every monthly meeting!

If you would like the PowerPoint presentation of Quality Quest please

email me the request and I will forward it to you.
